

Technical Data Sheet

Product Code	VACBN10
Product Description	Heavyweight, higher-airflow breather fabric - 335gms/sqM (10oz/sqYd) Standard stocked roll widths:- 0.75m (30") and 1.50m (60") Roll length - 50 metres

General Description	Needled, 80/20 nylon/polyester fabric for use as a highly drapable, breather and/or an absorption medium in composite vacuum bagging applications. The breather fabric should be separated from the composite laminate by a release material.
----------------------------	---

Properties

Colour:	White
Material fibre:	80% Nylon, 20% polyester
Nominal weight:	335gms/sqM (10oz/sqYd)
Nominal thickness:	4.2mm (uncompressed)
Maximum Usage Temperature:	200°C

IMPORTANT INFORMATION:

The information cited is in good faith and has been established from sources held to be secure and reliable. The values listed are typical properties and are not intended to be used as specifications for defined applications. Users must determine the product suitability for the end use application and assume all risks and liabilities.
