

Technical Data Sheet

Product Code VACleaseLT30G1.5P6

Product Description Green, low temperature release film – 30 micron thickness
Roll size 1.5 metres wide x 250 metres long - perforated
Usage temperature 150°C

General Description A highly flexible, perforated, polypropylene based release film. Suitable for use with epoxy prepreg up to 150°C and may be used in resin infusion applications.

Properties

Colour: Green
Film thickness: 0.03mm (30 micron)
Density: 0.90 g/cm³
Tensile strength at break: 30 N/mm²
Elongation at break: 600%
Maximum Usage Temperature: 150°C

IMPORTANT INFORMATION:

The information cited is in good faith and has been established from sources held to be secure and reliable. The values listed are typical properties and are not intended to be used as specifications for defined applications. Users must determine the product suitability for the end use application and assume all risks and liabilities.
